Nottingham Academy has developed an innovative Key Stage 3 (KS3) curriculum designed to support pupils through the transition from primary to secondary education. Pupils study English, mathematics and modern foreign languages as well as the new cross-curricular subject areas of 'discover', 'create' and 'perform'. The new subject areas have been developed to provide pupils with the opportunity to explore subjects in a deeper more coherent way, before pupils move onto a three year Key Stage 4 (KS4) curriculum.

Pupils attending Nottingham Academy can also experience a vast range of extra-curricular activities and extended opportunities available. These include sporting activities, Duke of Edinburgh Award, music and film clubs and opportunities to take part in work experience activities with some of Nottingham's largest employers.

Nottingham Academy strives to develop young people who are able to reason, enquire, create and evaluate and who are prepared for the ever changing world, through a broad curriculum, outstanding teaching and excellent pastoral support.

**Nottingham Academy – ambitious in its aims, innovative in its approach and resilient in its pursuit of excellent outcomes for all pupils.**
