They will also learn about children's nutrition and dietary needs.</p>	<p>R059 (Mandatory) Understand the development of a child from one to five years</p> <p>In this unit students will learn the physical, intellectual and social development norms for children from one to five years. They will understand the importance of creating plans and providing different play activities to support children in their development.</p>
Year 11	<p>Unit R018: Health and well-being for child development</p> <p>Becoming a parent is one of life's major experiences, and it is also one of life's major responsibilities. Responsibility for the well-being of a child starts before conception and this unit aims to provide learners with an overview of the roles and responsibilities of parenthood alongside an understanding of reproduction and pre-conceptual, antenatal and postnatal care.</p> <p>By completing this unit, learners will develop an appreciation of the importance of creating the best conditions for a child to thrive.</p>	<p>Unit R020: Understand the development of a child from birth to five years</p> <p>This unit will allow learners to investigate the developmental norms of children from birth to five years. Learners will develop an understanding of the impact of play on the developmental norms. On completion of this unit, learners will be able to apply their knowledge and understanding, through practical activities, to show how play affects the development of individual children.</p>	<p>Unit R020: Understand the development of a child from birth to five years</p> <p>This unit will allow learners to investigate the developmental norms of children from birth to five years.
